A First Course in General Relativity: Schutz, Bernard ...

A First Course in General Relativity. Development of the concept of general relativity and its associated mathematics, from a minimum of prerequisites, leads to an in-depth physical understanding of the theory and its most important applications.

A First Course in General Relativity by Bernard Schutz

Robert Scott's "Manual for a First Course in General Relativity" (referring to the textbook by Bernard Schutz) is a collection of solutions to many - not all - of the exercises in that textbook. It also has some additional exercises of it's own, and solutions in it. By providing these, it could indeed be called a manual.
