Green supply chain management (GSCM) has emerged as a way to combine environmental management and supply chain management (Srivastava, 2007). While firms are becoming more and more reliant on their suppliers to gain competitive advantages (Yeung et al., 2008), managers are increasingly forced to deal with social and environmental issues.

Supply chain perspective on competitive strategies and ...

Meanwhile, the pressure is on lean-focused supply chain experts expected to examine internal processes and accommodate supply chain shortfalls. Their perspective is integral not just to the continuous improvement of in-house activities, but, importantly, to the network adjustments that come with the re-shoring of supply production.
