Britain's Future Navy | Save the Royal Navy

Britain's Future Navy Posted on April 9, 2015 by Review Editor This revised edition contains some well-argued views of British sea power, or lack of it. There are some good colour images in illustration, but it has to be questioned whether any review of British naval power is likely to match the later realities.

Britain's Future Navy | FIRE Reviews

For an island nation, and one with such a rich naval history (The Spanish Armada, Trafalgar, Jutland, the Battle of the River Plate), the vast majority of the public in Great Britain are remarkably unconcerned about the present state of the Royal Navy (RN), let alone its future.

The Royal Navy is the principal naval warfare service branch of the British Armed Forces. As of August 2020, there are 77 commissioned ships in the Royal Navy. Of the commissioned vessels, twenty-three are major surface combatants (six guided missile destroyers, thirteen frigates, two amphibious transport docks and two aircraft carriers), and eleven are nuclear-powered submarines (four ...

List of active Royal Navy ships - Wikipedia

The Royal Navy (RN) is the United Kingdom's naval warfare force. Although warships were used by the English kings from the early medieval period, the first major maritime engagements were fought in the Hundred Years' War against the Kingdom of France. The modern Royal Navy traces its origins to the early 16th century; the oldest of the UK's armed services, it is known as the Senior Service.
