nursing theory and nursing research [i]are closely aligned; both are part of the

movement toward professional practice.

Both have the same goal: to improve the quality of nursing care the client receives.[ii]

### Nursing Research

...

Nursing theory consists of a collection of conclusions about real events and conditions that may be applied to real world nursing situations. Like other theories, it is often based on observations and written to be internally consistent and logical. Nursing practice, on the other hand, refers to the actual work that is performed by nurses.
