information for Hauppauge tuners.

Supported DVR Tuners and Antennas | Plex Support

If you are experiencing problems with USB devices, it may not be the fault of the tuner. The chipsets used on some computer motherboards can have problems with USB ports which results in tuners working or partially working or not working at all. This can be solved by using a separate USB adapter with a reliable chipset.

ATSC USB devices - LinuxTVWiki

The Roku Streaming Stick+ is simply awesome. It's super easy to set up, it's powered by your TV, and the signal booster that is built in to the USB cable ensures a strong wireless connection. This thing attaches entirely to the backside of your TV and is completely out of sight once it's installed.
