### The Great Transformation Wikispaces Pol319

The Great Transformation is a book by Karl Polanyi, a Hungarian-American political economist. First published in 1944 by Farrar & Rinehart, it deals with the social and political upheavals that took place in England during the rise of the market economy. Polanyi contends that the modern market economy and the modern nation-state should be understood not as discrete elements but as the single ...

The Great Transformation examines the social and political changes that took place in England during the rise of the market economy. One of the primary conclusions Karl Polanyi makes, and something that differentiates him from Keynes and Hayek, is that the nation state and the newly formed market economy are not separate entities but are one object of human invention which he refers to as 'the market society'.
